University of Redlands, Redlands, CA

ACCOMPLISHMENTS

- Forged a solid foundation in web development through 3 years of self-directed learning, culminating in exceptional proficiency.
- Proven track record of 1 year in delivering exceptional results to startups and e-commerce businesses.
- Master of HTML semantic markup, CSS progressive enhancements, and web accessibility features.
- Proficient in an array of low-to-no-code platforms for versatile and efficient solutions.

EXPERIENCE

July 2022 - Current
Lead Web Developer Shiloh Software | Los Angeles, CA
Served as the driving force behind the development of high-performing e-commerce business websites. Handpicked the ideal technology stack based on client needs, collaborated closely with the lead designer, and provided regular progress updates. Ensured seamless maintenance, SEO, and content updates, all while employing agile methodologies for peak efficiency.

- Tech Stack : Html, Css, JavaScript, Sass, Wordpress, WooCommerce, Divi Theme

February 2023 - April 2023
Maintenance Developer Q-Actual LLC | Los Angeles, CA
Successfully revitalized a partial Webflow website by improving its visual presentation, correcting layout structure, fonts, styles, colors, and animations. Developed comprehensive documentation for ongoing maintenance and implemented basic SEO strategies to boost website visibility.

- Tech Stack: Weblow

November 2022 - April 2023
Bubble Developer Paraclete | Los Angeles, CA
Played a pivotal role in refining UI/UX to maximize user engagement and productivity. Swiftly addressed and resolved known bugs and issues, crafted reusable interface elements, and maintained detailed logs on bug repairs. Regularly participated in weekly stand-up meetings to discuss updates and achievements.
